

Kolloquium Epidemiologie und Biostatistik

Use of routine data for clinical research – Part II: Experiences

Mittwoch 15. Januar 2025 | 17:30 bis 18:30 h | N55 SR201

Dr. Julius Obergassel – IDM gGmbH, Hamburg und Universitäres Herz- und Gefäßzentrum Hamburg, UKE

Routine Data for Medical Research and Research Data Management from a Clinician's Perspective

Dienstag 4. Februar 2025 | 16:30 bis 17:30 h | N55 SR209

Prof. Dr. Folke Brinkmann & Nikolas Jakobs – Pädiatrische Pneumologie und Allergologie, Universitätsklinikum Schleswig-Holstein, Lübeck

KIRA Dashboard: Real-Time Monitoring of Child and Adolescent Health in the German Network for University Medicine (NUM)

Using patient data from routine documentation for observational research has increasing potential, but likewise comes with significant challenges. We will explore the most relevant ones in the context of successfully existing projects.
